

May 2017 Newsletter

General Meeting and Digital Photography SIG

Thursday, May 4, 2017, at 7:00pm
LOCATION: Cypressdale Clubhouse
4815 Elmbrook, Spring, Texas

TOPIC: The Exposure Triangle
PRESENTER: Ken Frederick & Jimmy Hemphill

6:30 PM:

- Membership sign-in, pay dues, and greet visitors.
- Spend time with other members and share your questions and answers

7:00 PM to 7:15 PM:

- General Meeting Announcements

7:15 PM to 9:00 PM:

- Digital Photography SIG

Ken Frederick and Jimmy Hemphill have presented at our club twice before. In 2014 they did "Pulitzer Prize Winning Photographs", and in 2015 their topic was "Photography Innovations". Whenever these two present their latest subject, we all learn something interesting and grow as amateur photographers.

This time their topic is "The Exposure Triangle". There are three things that determine whether or not your images will be properly exposed -- aperture, shutter speed, and ISO. Sure, you've read about them, and you know where the controls are on your camera. Come to this presentation and you will leave with a much deeper appreciation of how the three settings affect each other -- and your images!

I hope you'll be there on Thursday May 4th at 7:00 PM to become a more knowledgeable photographer!

Technology SIG

Tuesday, May 9, 7-9 p.m., Sam Sandham, Leader

At the Technology SIG we have discussions on a wide variety of subjects pertaining to all technology new and old and of course many topics surrounding all versions of the Microsoft Windows operating systems. The primary subject matter will be driven by the specific questions or request from the attendees.

No subject is off limits; we cover it all. Come and join us. The topics are always interesting. It is amazing all of the technology know-how that exists within our club members.

This SIG is becoming more popular with members as Sam leads the group to solve problems, learn current information, answer questions, and shares the latest technology. You will be amazed at how much fun we have at this meeting. Attend the SIG and discover a vast amount of new information.

Check the club website for additional Technology SIG updates, the latest advances in gadgets, and links for current computer news.

Position Available

Jim Sandham, our current Digital Photography SIG Leader, will be moving at the end of the year and will be greatly missed. Jim has carried many responsibilities in making our club a success. Now we are planning ahead to select a member or members to step into his role of arranging for speakers, leading the SIG, and planning field trips. These duties could be shared by several members. Please consider filling one or several of these positions. Jim is willing to help with transitioning into any one of these roles. Contact him at jsandham77@gmail.com.
